

Field Wire

Wire Specifications:

- 19 strands rolled hard tinned copper weld (HTCW) (16 AWG)

Wire Jacket Specifications:

- High density Polyethylene .086 outside diameter HDPE (.086 OD). Tested to -45 C

Single Spool of Wire Specifications:

- Spool Wire Length: 2000m
- Spool Weight: 31 kg.
- Tensile Strength: 45 kg.
- Total Resistance: 70 OHM/km

- Also Available: 12 and 14 AWG wire for field requirements exceeding 4 kW
